

## Canadian Primary Aluminium Production

September 7, 2017 — The Aluminium Association of Canada reports that primary aluminium production in Canada in **August 2017** totalled **273,389** metric tons. The monthly production was up 0.66% in comparison with the month of July 2017. Based on year-to-date average daily production of 8,812 metric tons, the annual projection of production is 3,216,502 metric tons and would be 0.24% higher compared to the real 2016 production.

### Production report for August 2017

(figures in metric tons)	Production		Average daily rate of production		Annual projection of production	
	2017	2016	2017	2016	2017	2016
January	274,590	261,801	8,858	8,445	3,233,076	3,090,941
